

Nez Perce Revenue Allocation Survey

1. Introduction

The Nez Perce Tribal Committee (NPTEC) is attempting to put together a Revenue Allocation Plan for the potential distribution of tribal gaming revenues to enrolled tribal members. This distribution is sometimes referred to as a "Per Capita" payment.

There are many factors that go into making such a decision. These factors include determining how such payments affect tribal members individually and how such payments affect tribal economic development or governmental services. It is important that the NPTEC knows and understands what the opinions of enrolled tribal members are on these issues.

The following survey will be used to gather this information from tribal members.

Please note that all individual answers and personal information provided in the survey are CONFIDENTIAL information and will not be shared with any person or group. All responses to the survey will be compiled into a final report. The final report will be provided to NPTEC to be used in the development of the Revenue Allocation Plan.

Only adult tribal members are eligible to participate in the survey. (Age 18 or above, General Council voting age) Participation in the survey is limited to one submission per person.
